

Jordan Technologies offers a full line of parts for each of the manufacturers featured below and sources for many additional manufacturers. Our parts specialists manage the largest petrochemical and energy spare parts selection available in the global market today.

Jordan's **parts department** and **technical field service group** work in tandem around the world on sales, installation, repairs, and service. We can be reached 24 hours a day, 7 days a week.

Let Jordan's energy go toward making the most of yours.
